Receipt of applications for four Project Technical Assistants to work on a project titled "Identification of a Combination Therapy for Steatotic Liver Disease Associated with Metabolic Dysfunction, Focusing on Drug Repositioning," funded by the Indian Council of Medical Research (ICMR), had closed on February 25, 2025. Subsequently, the relevant faculty members screened all the applications received and prepared a first shortlist of applicants, from among eligible applicants, based on some criteria comprising academic and professional experience. Applicants on the first shortlist will be interviewed first. If the required number of positions can be filled by interviewing the applicants on the first shortlist, then interviews of the remaining applicants will not be held.

The shortlisting-criteria and the first shortlist of applicants for the three advertised domains are presented below.

Project Technical Assistant (Computational)

CRITERIA FOR FIRST SHORTLISTING

Applicant must satisfy all essential qualifications AND claimed to have any degree /diploma with specialization in machine learning/artificial intelligence/data science/bioinformatics AND claimed to have a level of expertise of at least 4 either in Python or in R.
